Our Nursery and staff are committed to encouraging positive role models, displayed through toys, imaginary play and activities that promote non-stereotyped images.

All children will be encouraged to join in activities, i.e. dressing up, shop, home-corner, dolls, climbing on large apparatus, bikes, etc.

All staff act as key carers and will be responsible for their key children's individual needs during the Nursery day.

We are committed to working with parents/carers and external agencies to ensure that the children's individual needs are met. The Nursery refers to the Special Educational Needs Code of Practice and our Special Education Needs Policy and Procedures where we feel children may need further support.

The Nursery has a Special Educational Needs Coordinator and it is their responsibility to support and observe any children we feel may be

having any difficulties or need additional support; they will ensure that relevant documentation is completed and that relevant external agencies are contacted for advice and she also ensures that staff are aware of how to support the child using advice given.

We are committed to working with the parents/carers and other agencies and this is done in a number of ways that include, parental evenings, questionnaires, and discussions. We encourage Early Years professionals and individuals to support our children's development and progress towards the Every Child Matters Framework.
